

Education is the cornerstone of a thriving society, and it is my priority to ensure that every child in Arizona has access to high-quality learning opportunities.

In this email, I will share my vision for **improving our state's education system**, addressing the challenges we face, and outlining the legislative measures I have **championed to support our students, educators, and schools**

Together, we can build an educational framework that equips our youth with the tools they need to succeed in an ever-changing world.

## Bills that Support Sound Education for all Arizona Children

Throughout my tenure as your representative, I have ardently championed legislation that prioritizes the welfare and educational success of our children in Arizona. I have supported bills that enforce stricter safety measures in schools, ensuring a secure learning environment where students can thrive.

I have also advocated for increased funding for **special education programs and resources** that support both gifted and struggling students.

**These efforts are aimed at fostering an educational system that is fair and equipped to prepare all Arizona children for a successful future.**

In addition to safety and resource allocation, I am ensuring that every child has access to a quality education.

We are not only investing in our children's future, but also in the prosperity of our state as a whole. **It is my unwavering commitment to continue working towards an educational framework that empowers our youth and builds a brighter future for all Arizonans.**

Take a look at two important bills that support what I have addressed above:

**[SB1166](#)** - prohibits pronouns; names; sex; school policies

**[SB1182](#)**- public school privacy safeguards; showers; reasonable accommodations

## Protecting ESAs (Empowerment Scholarship Accounts) is a Priority

As your representative, I have diligently worked to ensure that our tax dollars follow the child instead of being allocated solely to educational institutions.

This approach, rooted in the philosophy that parents and guardians know what is best for their children's education, empowers families to choose the schooling options that best meet their needs, whether it be public, private, charter, or homeschooling.

**By prioritizing the student over the system, we have made significant strides in educational reform.** These efforts have resulted in increased flexibility and opportunities for Arizona's children, fostering an environment where all students can thrive and achieve their fullest potential.

**The progress we have made underscores our commitment to putting the educational needs of our children first, ensuring they receive the high-quality education they deserve.**

✔ ESAs are here to stay! Republicans are proud to have protected school choice for Arizona families! @AZHouseGOP

## Education in the Arizona State Budget

As your representative, I have been steadfast in ensuring that the 2024-2025 Arizona state budget **aligns with our core values** of protecting school choice, maintaining fiscal conservatism, reducing the size of government, and bolstering border security and public safety.

I worked diligently to craft a budget that not only **safeguards our children's educational opportunities** through initiatives like Empowerment Scholarship Accounts (ESAs), but also ensures that taxpayer dollars are used efficiently and responsibly.

This budget shrinks government waste by streamlining operations, while simultaneously channeling essential resources towards strengthening our border and enhancing public safety measures.

Below is a graphic that highlights the key components of the budget and how they reflect our shared priorities.

**It is imperative that we continue** to craft and support legislation that not only protects our children in public schools but also upholds the values of educational choice through ESAs. Our commitment to these principles ensures that every child in Arizona, regardless of their educational path, can flourish in a safe, supportive environment.

By passing bills that promote school safety, academic excellence, and parental choice, we are laying the groundwork for a robust educational system that can adapt to the diverse needs of our student population. Your continued support is crucial in making these goals a reality.

As your representative for Legislative District 25 for the past two years, I have proven where I stand on the education front. **We have made big strides, but let's not stop there!**

Ten Commandments back in Schools

When it comes to re-introducing the Ten Commandments in schools, I supported the bill [SB1151](#) because I think that public schools could use a reminder to teach students how they ought to treat their fellow man.

## HELP KEEP ARIZONA STATE HOUSE RED

I am running for re-election with common sense plans to further enhance our schools and Educational Savings Accounts (ESAs), strengthening the future for upcoming generations.

This is a long-term investment of the highest order: we have the opportunity to provide Arizona children with the best possible education while laying the foundation for future entrepreneurs, a skilled workforce, and dedicated first responders. **Together, we can build the vibrant society in Arizona that we all aspire to.**

Stand with me in advocating for the educational future of Arizona's children.

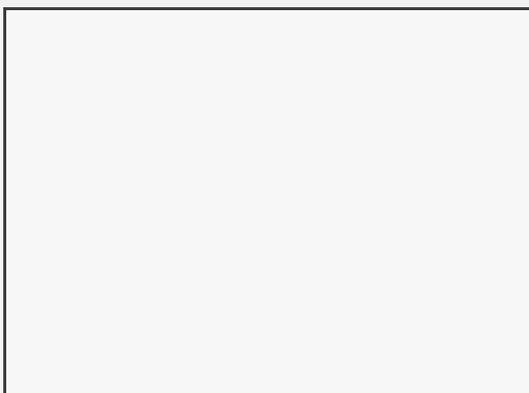

Together, we can achieve lasting reforms that protect and empower every student in our great state.

**Vote Michael Carbone for Arizona Legislative District 25!**

Sincerely,  
**Michael Carbone**
